Courses

- Cisco Certification - IT Essentials

Boston, MA

WORK EXPERIENCE

Web Development Immersive General Assembly

01/2018 – 04/2018

Boston, MA

Completed a 12 week, 600 plus hour full-stack web development boot camp. Wrote and deployed full-stack web applications, both individually and in groups.

- Tic-Tac-Toe: I was required to build this game using front-end tools. A user has to create an account or sign in, in order to play. Players can start a new game, keep track of games played. As well as changing their password. HTML, CSS, AJAX, Bootstrap, JQuery, and JavaScript were used to build this app.
- Budget Tracker: For my Second project. I had to create a full stack project. Budget Tracker allows a user to keep track of their spending. By entering a receipt information into their budget Tracker account. JQuery, JS, Ruby, Ruby on Rails, SQL, Handlebars were used to build the app.
- This Or That: "This or That" is a web app that allows user to create simple surveys, that have up to three options. This app was built with the help of three other programmers. Technologies used were JS, MongoDB, Mongoose, Express.js, Node.js, and Handlebars.js.
- Blog Space: Is a blog site that let a user create and post a blog for others to read. The owner of a blog can update and delete a blog. Technologies used include JQuery, JS, Ruby, Ruby on Rails, SQL, Handlebars.
